

Dear Abbi

As discussed at the Parish Council meeting on 6th January 2025, regarding the cost of up- grading the 225mm drain from Hankelow green to river.

Total revised cost of work £6,700 including VAT, I am awaiting the new estimate from Mr Thomasson and will send on when I receive it, and I am assured that this will now be the cost of the agreed work.

We will not ask the Parish Council for any more money than requested of the PC, it is a fixed price.

Following the discussion we would ask the Parish Council for a contribution of £1000 plus VAT = £1.200 towards this work.

The remainder of the cost will be met below -

Richard New £1000

Steven Hulme £1000

Barns £300

5 Houses and White Lion with treatment plants £3,400, this includes £200 contingency for any extra cost.

All above are including VAT

Kind regards

Derek Smith
